

## An Empire is Born: Life of a Crazyhawk

A single choice can change one's life. This is the hard truth that Christina Flores is facing. A choice to do what her family believe and knows she can do or to turn and cut ties with everything she believe and loves in. As she makes her choice she learns of a forbidden love while trying to have a normal life. While overcoming the obstacles that come across her path Christina is faced with another choice to do the ultimate sacrifice for the fate and well being of her family or do nothing and risk everything she has worked for. Nobody said life was going to be easy.
