

## After Lyletown

In 1988 Alan Ripley is a successful suburban lawyer, happy at home as well as at work, with a deep sense of gratitude at having found his way to this place. Given his history, he has every reason to feel proud of what hes accomplished. Then he gets a phone call and hears a voice from twenty years ago. Its Rory Dekker, bringing with him memories of Lyletown. When he was a grad student in the 60s, Alan got caught up in a political action that got out of hand, a bungled robbery of a gun store in a place called Lyletown. When the plan unraveled, one of the Lyletown Five, as the media called them, was killed, Rory was captured, and the rest fled. Though Alan was too sick to participate, he knew very well that if anyone talked, he was in trouble. Fortunately, nobody talked. Now, out of the blue, Rory, who spent more than a dozen years in prison, is back in Alans life, and he insists on seeing his old friend. What does Rory want from Alan? Is he just interested in talking about old times or does he think hes entitled to compensation for having kept quiet about Alans role in the plot? What does he know about the other members of the group? How much should Alan, whos tried to put all this behind him, tell his wife about what happened two decades earlier? And what is his legitimate obligation to Rory? The Lyletown affair, it seems, just won t stay in the past.
