

Orange Petals in a Storm: A spiritual, inspirational story to feed the soul. In Skylas world, we find shelter from every hazard and outlive the longest night. A bedraggled and bruised eleven-year-old child races through the rain-drenched streets of East London as though the hounds of hell were after her. She tries to reach the home of her childhood, a home that was hers until her mothers recent death. What becomes of Skyla McFee once she arrives there? From whom does she run? This is a story about a wonderful child who endures great suffering at the hands of her stepfather. Though she lives in a harsh reality, she evolves spiritually despite, or perhaps because of the hurt she suffers. The magical way she transcends her unbearable life through her inner world transports us into the hauntingly beautiful world of the imagination. Telling you that Skyla triumphs over her situation is not a spoiler - because as you get to know her, you realise there is no other way. She must triumph because of who she is. Read what others say about this book: ...A delicate, luminous, mysterious book. I am not able to decide what the exact genre is - is it magical realism? Fantasy? Literary fiction? All of the above? Its hard to define. After reading the first paragraph, I knew I had picked a winner. The story instantly engages you, the words flowing elegantly and as magically as the story itself... This is deeply soulful writing, pitch perfect for our fractured times. Unputdownable... You will read and re-read. Niamh Clune is, in the Irish tradition, a masterful wordsmith. The story is beautifully written, powerful, moving, original and believable. ...A female Pat Conroy. This Irish lassie has been kissed by the faeries in order to come up with such an outstanding work. Mystical writing at its best!
