

Chief Ranger Cahan Devlin is no ordinary human. A dark corruption is growing inside him, clawing against the walls of his sanity. This force influences his every action, and the lines between ally and enemy are constantly blurred. Of course, it doesn't help that the defeat of a nameless evil rests on his unstable shoulders. After a routine mission, Cahan captures a loose-tongued demon half-breed. The prisoner implicates conspirators within the government who are colluding with demon insurgents from a foreign land. Their goal is to destabilize the Republic of Protos, her wards, and human colonies—in an effort to reseat a king upon the throne. Unbeknownst to the conspirators, their foreign allies wish to awaken a great evil, a clan of off-worlders who were previously driven from the planet before recorded history by a celestial being. As Cahan quests to unravel the mystery of the evil off-worlders, he must diffuse the ticking time bomb that he has become—because at any moment he may murder the ally standing by his side.
