

Terms & Conditions

Frank has been in a serious car accident and hes missing memories-of the people around him, of the history they share, and of how he came to be in the crash. All he remembers is that he is a lawyer who specializes in fine print, and as he narrates his story, he applies this expertise in the form of footnotes.*Everyone keeps telling Frank that he was fine before the accident, just a bit overwhelmed,?? but as he begins to reclaim his memories, they dont quite jibe with what everyone is telling him. His odious brother Oscar is intent on going into business with an inventively cruel corporation.** Alice, Franks wife, isnt at all like the woman he fell in love with. Shes written a book called Executive X that makes Frank furious, though he isnt sure why. And to make matters even stranger, stored in a closet is a severed finger floating in an old mustard jar that makes him feel very, very proud. As more memories flood in, Franks tightly regulated life begins to unspool as he is forced to face up to the real terms*** and the condition of his life.**** Robert Glancys debut novel is a shrewd and hilarious exploration of freedom and frustration, success and second chances, and whether its worth living by the rules.* Yes, exactly like this.** We cant tell you what its called for legal reasons, but believe us, its evil.*** Which are rarely in his favor.**** Which is a total mess.
