

What if...What if the Dead Sea Scrolls and the Nag Hammadi scrolls were just the tip of the iceberg? Victor Collins finds his life has been drastically altered when he awakens from a 6 month coma and discovers he has been recorded speaking in Old Aramaic while unconscious. Religious power centers take notice of the translations and the race is on to prevent a Titanic collapse of Christianity as currently practiced. Victor runs the gamut from reincarnation, to self realization, to politics and high stakes religious corruption within the Catholic church and confrontation with the Bush-Cheney administration in fulfilling his mission from God, of bringing the actual words of Yeshua as written by the scribe Nazzir (Victors previous incarnation) to light.
